

## WGC ECONOMIC PROGRAMS

---

# II. Economy In Action

### DESCRIPTION

This program aims at strengthening the participants knowledge gained from the Economy In A Box program. Economy In Action deepens this knowledge through case studies, economic business articles, discussions, business models, in addition to role playing allowing participants to put their knowledge earned into practice.

### OBJECTIVES

- Help participants apply the knowledge they gained from previous programs in real economic business cases.
- Refine participants' analytical, leadership, collaboration and strategy skills and learn the latest trends in the field.
- Analyzing and co-relating economic issues with banking topics.

### CONTENTS

This highly practical program will be conducted through interactive sessions encompassing the following structure:

- Reviewing case studies and economic business articles.
- Analyzing and discussing cases and data through group discussion and group exercises and activities.
- Linking data to community and banking objectives.
