

WGC ECONOMIC PROGRAMS

III. Egy Gov Program 2016-18 “Yes We Can”

DESCRIPTION

A distinguished program that presents and discusses the Egyptian Government's plan with its seven-step vision for developing the economy and improving public services through 2018. The program also highlights and discusses the underlying challenges, and the 7 fronts of focus on how to surpass the proposed challenges. It aims at raising the awareness and understanding of the planning process, the strategic decision making of the country, and the current vision and direction.

OBJECTIVES

- Highlight the main challenges to paint a clear picture of the current situation.
- Outline the government's vision for running the country, including a "serious commitment" to the reform process on the political, social, environmental and administrative levels.
- Presenting the key legislative and practical steps that the Government will take through 2018.
- Outline the government's vision on seven major issues-national security, democracy, economic development, social justice, basic infrastructure, administrative reform, and international relations.
- Addressing the government's socioeconomic programs and megaprojects.
- Articulation of the government's future course and focus.
